Additional Linen – extra sleeping bag/ blanket or Extra Pillow:

\$15 each Item

ADDITIONAL INFORMATION

Our long-wheelbase campervans are built for comfort and safety, featuring both driver and passenger airbags.

Each rental includes a personal kit with all the essentials—towel, sheet, sleeping bag, pillow and pillowcase and some kitchen equipment —so you're ready to hit the road.

When fully charged, the campervan's house battery can power your needs for up to 36 hours. However, we recommend staying at a powered site each night unless you're driving for at least 8 continuous hours, which is typically enough to fully recharge the battery without needing a 240V power connection.

Please Note: These pictures and specifications are indicative of the vehicle that will be supplied under your booking. Actual vehicles may vary according to the year of manufacture and availability. All measurements are approximate, not guaranteed and may change at any time without any notice
